

Elpha 10 and 14 Outdoor

OD1063, OD1064 | 1.0

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for wet locations.

This product may be dimmed with a low-voltage electronic dimmer.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE
 This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
 Use minimum 90°C supply conductors.

Install the Fixture

- 1** Remove the fixture screws located on the sides of the fixture base using the provided Allen Wrench, then remove the mounting plate from the fixture base.
- 2** Secure the mounting plate to the electrical box using the two #8-32 screws provided.
- 3** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 4** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 5** Connect the black fixture wire to the hot power line wire with a wire nut.
- 6** Properly place all wires and wire nut connections into the electrical box, mount the fixture back onto the mounting plate, and reinstall fixture screws (reversal of step 1A).
- 7** For wet locations, caulk around the entire fixture base with waterproof construction sealant.
